Fornetix® Joins the VMware Technology Alliance Partner Program

Ashburn, VA, June 5,2017 — Fornetix today announced it has joined the VMware Technology Alliance Partner (TAP) program as an Elite level partner. Members of the TAP program collaborate with VMware to deliver innovative solutions for virtualization and cloud computing. The diversity and depth of the TAP ecosystem provides customers with the flexibility to choose a partner with the right expertise to satisfy their unique needs.

With thousands of members worldwide, the VMware TAP program includes technology partners with the shared goal to bring the best expertise and business solutions for each unique customer environment.

"We welcome Fornetix as a valued member of the VMware TAP program," said Kristen Edwards, director, Technology Alliance Partner Program, VMware. "This membership means customers can take full advantage of a streamlined cloud infrastructure experience. By joining the program, Fornetix is working with VMware to develop technologies that can transform customers' environments."

"Fornetix has focused consistently on standards-based key and certificate material life cycle management–making encryption more effective, affordable, secure and easy to manage," said Chuck White, CTO of Fornetix. "Joining the VMware TAP program brings forth the full commercial power being made available by the OASIS KMIP standard to any organization utilizing vSphere 6.5 encryption."

Fornetix's product information, collateral and other assets are listed within the online VMware Solution Exchange at https://solutionexchange.vmware.com/store/companies/fornetix-llc. The VMware Solution Exchange is an online marketplace where VMware partners and developers can publish rich marketing content and downloadable software for our customers.

About Fornetix

Fornetix is helping organizations unleash the full potential of encryption by conquering the key management bottle-neck. Our Key Orchestration® ecosystem automates the key lifecycle across the entire enterprise with groundbreaking precision and speed. As global use of encryption rapidly expands, you can be prepared for the future with the unparalleled scalability. Our commitment to standards-based interoperability ensures your existing investments in encryption are fully realized and will continue to integrate seamlessly as your organization grows. Policy-driven automation of the key rotation lifecycle reduces human error and empowers your organization to remain secure and avoid costly data breaches. If you're ready to orchestrate your encryption key management, we'd love to hear from you. Please call 1-844-KEY-ORCH or visit www.fornetix.com for more information.
